PROFESSIONAL STATEMENT

Hello, I'm an analyst programmer, a software engineer with a solid grounding in IT product management. Leading product development for high-traffic platforms at renowned companies such as Tencent and JD.com has been a pivotal experience that sparked my zeal for programming. Rethinking my life during COVID accelerated a significant shift in my career path.

I completed a master's degree in computer science with High Distinction, and gained valuable experience working as a software engineer at several companies in Australia. My expertise spans the full stack, encompassing a wide range of technologies include Cloud services.

My background gives me a well-rounded skillset and diverse perspective. As I pursue a career in solving IT problems, I'm keen on exploring new opportunities, meeting people from various industries, and creating enjoyable experiences together.

TECHNICAL SKILLS

- Unified Modelling Language, OOP, Entity Relationship, Agile
- JavaScript, TypeScript, Node.js, Next.js, React, Jest, CSS
- .NET with C#, Blazor Server, Java, MySQL, MS SQLServer, MS test, Postman
- Docker, AWS Cloud, Azure, GitHub CI/CD

DOMESTIC WORK EXPERIENCE

Full Stack Developer (4/2024 – 10/2024)
Label Avenue Pty Ltd. full-time

Started from requirement analysis, I'm developing a high-performance quote system including resources management, roles management and work-flows, cost and margin calculations, reports, Monday.com and Xero integrations.

Web Developer (11/2023 – 4/2024)
Soniq Digital Media Pty Ltd. part-time

Acting as a front-end developer in collaborative projects to build a SaaS product 'Soniqcast' and the official website, I ensure a seamless client experience in controlling their distributed digital signages.

.NET Full-stack Intern (08 – 10/2023)
eSMART 21 Pty Ltd. 0.6 FTE internship

I built beta web API services for eSmart21 from scratch, including an API subscription management end for both administrators and clients, and customized API endpoints tailored to client subscriptions with optimized performance.

Through designing, developing, and testing the platform, I mastered tools, frameworks, and platforms like RESTful API, MS SQL Server, MVC, Swagger, ORM, DTO, .NET Identity, Serilog, Chunked HTTP/HTTPS, JSON, XML, SFTP, and cloud services.

Junior Systems Analyst (08/2022 – 07/2023)
Flinders University 0.5 FTE part-time

- Efficiently resolved ServiceNow tickets daily for AEM, Microsoft Dynamics 365, Raiser's Edge, and Jotform by conducting troubleshooting, data retrieving and configuration to ensure seamless business operations.
- Authored comprehensive documentation for system processes.
- Supported regular data migration and testing.
- Engaged with Agile team, gained valuable insights into Scrum.

INTERNATIONAL WORK EXPERIENCE

IT Product Manager (08/2021 – 02/2022 contract)
Golden Days International Medical Technology Co., Ltd. full-time

- Spearheaded the product roadmap refinement and the resolution of requirement conflicts and for a multi-tier e-commerce platform including 2 mobile apps and a business admin end tailored to the direct sales industry.
- Performed as a Scrum Master and Business System Analyst, defining capability requirements for MVP, leading the team completing a significant platform release smoothly within 3 months—a feat not achieved by 3 predecessors.

Senior System Analyst (07/2018 – 09/2020 quit for overseas study)
JD.COM, INC. full-time

Improved the customer service system of one of the leading e-commerce companies in China by turning chaos into optimal system processes, resulting in cost reductions, increased customer satisfaction, and recognition of JD as the best online customer service provider.

- Operational contributions: Data-driven enhancement proposals; incident analysis & handling; requirements & stakeholder management; configuration & training.
- Project contributions: Sorted out complex capability requirements and MVP to achieve significant projects such as 'After-sales for promotional packages', 'Complaint reduction via big data regression', and 'Intelligent service platform'.

IT Product Manager (08/2015 – 07/2018)
E-Agriculture Technology Co., Ltd. full-time

Contributed as a Product Manager, System Analyst, and Project Manager in a start-up setting, leading the team in building an agricultural product traceability information system and a bounded e-commerce system.

Directed stages of the system lifecycle, from requirements engineering to system design, development, and testing.

Business System Analyst (07/2012 – 11/2013)
E-Money Holding Co., Ltd. full-time

Provided optimization solutions for Securities investment analysis software, managing requirements from different source, with principles of 'root requirements analysis' and 'user-oriented design'. Conceived and designed new feature prototypes and workflows. And conducted interpretation and UAT ensuring ideal delivery.

DOMESTIC EDUCATION

Master of Computing and Innovation (02/2022 – 12/2023)
The University of Adelaide

- Engaged in advanced computer science studies and projects. Achieved a high distinction with a GPA of 6.6 out of 7
- Participated in the Women in STEM, Global IQ Connect, Talking with Aussies programs to develop my comprehensive abilities.
- Awarded the Global Citizens

Better React (06 – 07/2021)
Online bootcamp

Learned font-end developing skills with React, Redux, Jest through 10 projects. And enhanced self-taught JavaScript, CSS skills.

DOMESTIC EDUCATION

Project Management Professional (02 – 05/2017)
Project Management Institute
Gained a comprehensive understanding of project management principles, practices, and methodologies;

Bachelor of Industrial Design (09/2008 – 06/2012)
China University of Mining and Technology
Acquired and applied knowledge about 'industrial technology' (including IT), 'user research', and 'designing skills' to effectively apply technology in meeting various human requirements through industrial solutions.

Certificates

System Analyst (Migration Skill Assessment based on my work experiences in China)
Australian Computer Society (ACS) 2024

Project Management Professional (PMP)
Project Management Institution(PMI) 2017

Master of Computing and Innovation
The University of Adelaide 2023

Bachelor of Engineering
China University of Mining and Technology 2012
